CONTENTS OF VOLUME 41

BACH, A., Boltzmann's Probability Distribution of 1877 1

BURY, C. R., see DAVIES, M. 185

DAVIES, M., C. R. Bury, L. Vegard and the Electronic Interpretation of the Periodic Table. A Note 185

DUTKA, J., Robert Adrain and the Method of Least Squares 171

EDWARDS, H. M., A Note on Galois Theory 163

FISCHER, S., see KOCH, U. 93

FOWLER, D. H., An Approximation Technique, and its Use by Wallis and Taylor 189

HALD, A., Evaluations of the Beta Probability Integral by Bayes and Price 139

KOCH, U., J. SCHAPER, S. FISCHER & M. WEGELIN, Eine neue Interpretation der Kudurru-Symbole 93

MAEYAMA, Y., Kepler's *Hypothesis Vicaria* 53

MAIERÙ, L., "... in Christophorum Clavium de Contactu Linearum Apologia" 115

MALTESE, G., The Rejection of the Ricci Tensor in Einstein's First Tensorial Theory of Gravitation 363

SAMPSON, J. H., Sophie Germain and the Theory of Numbers 157

SCHAPER, J., see KOCH, U. 93

SESIANO, J., Two Problems of Number Theory in Islamic Times 235

SPALT, D. D., Die mathematischen und philosophischen Grundlagen des Weierstraßschen Zahlbegriffs zwischen Bolzano und Cantor 311

TIAN YU CAO, The Reggeization Program 1962–1982: Attempts at Reconciling Quantum Field Theory with *S*-matrix Theory 283

TWEDDLE, I., Some Results on Conic Sections in the Correspondence between Colin MacLaurin and Robert Simson 285

WATERHOUSE, W. C., Gauss's First Argument for Least Squares 41

WEGELIN, M., see KOCH, U. 93
